JUMIN SHIN

(213) 556-5439 | juminshi@usc.edu | linkedin.com/in/juminshin | Portfolio: juminshin06.github.io

EDUCATION

University of Southern California | M.S. Integrated Design, Business & Technology *Aug 2025 - May 2027*

Hongik University | BFA Design Convergence · B.Eng. Game Software (Double Degree) *Mar 2019 - Aug 2024*

SKILLS

Web: JavaScript, TypeScript, React, HTML/CSS, responsive & real-time UI, component architecture, server-side form handling, authentication (OAuth, email verification), payment integration, accessibility (WCAG), web performance, Git
AI: Agentic workflows, human-AI interaction, Model Context Protocol (MCP), prompt design, AI SEO / JSON-LD, Python
Design: Figma, UI design, interaction design, design systems, data visualization, Unity PolySpatial (visionOS)

EXPERIENCE

Web Development & Internal Systems Intern | Swim Up Hill Foundation, Los Angeles *Jun - Aug 2026; Oct - Dec 2026*

- Designed and built the foundation's website end to end, owning **UX, visual design, and full-stack development**; **6 user journeys now run live**: **4-step enrollment**, donations, shop, webinar, newsletter, and school inquiry.
- Built in **HTML/CSS/JavaScript** with server-side form handling and email delivery; replaced false-success forms with verified delivery and staff notifications, and integrated **Donorbox** with separate donation and merchandise routing.
- Building **My Portal**: **email-verified and Google/Apple sign-in**, role permissions, and **six role-based dashboards**.

AI Research Intern | Bubba's LA, Burbank, CA *May - Jul 2026*

- **Scaled an AI rough-cut platform 30×**, from a 10-video prototype to **300+ videos per batch**, and shipped it to production, owning **UX/UI design** and front-end build; eliminated manual clip-by-clip sorting of footage, scripts, storyboards, and VO.
- Designed and built a **real-time monitoring dashboard**: one view of timeline, media, 3D scene, and lighting status.
- Put **11,500+ contacts** in the business team's hands with a **real-time mobile lead dashboard**; led an **AI SEO / JSON-LD** audit whose findings became the prioritized site-growth roadmap.

Program Teaching Assistant, Summer CS Program | USC Thomas Lord Dept. of Computer Science *Jul 2026*

- Co-developed **Vibe Coding** curriculum (**prompt engineering, multi-agent workflows, AI automation**) for **70 students across 3 sections**; advised final-hackathon teams on **UX and interface design** as well as build and debugging.

Researcher & Designer Intern | Macromill Embrain, Seoul *Nov 2023 - Jun 2024*

- Turned **mixed-method research** (~100 participants) for **Samsung, Hyundai, and SK** into next-phase **UI prototypes**.

Web Developer Intern | Zephframe, Remote *Aug - Dec 2022*

- Built **scroll-responsive JavaScript animations** and **Unreal Engine** spaces for an AI-powered modular smart door.

UX Designer Intern | Cheil Worldwide (Samsung), Seoul *Mar - Jun 2022*

- Shipped **localized campaign websites** and promotional UI for Samsung **Galaxy Z Fold4 / Flip4** in **~10 markets**.

SELECTED PROJECTS

Honda Product Visualization Sprint | American Honda × USC IYA *Feb - May 2026*

- Led UI for a **multi-user Apple Vision Pro** design-review prototype in **Unity PolySpatial** with Logitech Muse Pen **3D annotation**, letting an 8-person team mark up one model together; **live demos to Honda R&D**.

Ethicon R&D: AI Post-Op Assistant | Johnson & Johnson MedTech × USC IYA *Jan - May 2026*

- Designed UI/UX for an **AI assistant** that documents and predicts surgical-site outcomes (9-person team, clinician input).

Hackathons | HAiLY · Newegg Gamer Zone · USC IYA Vibe Coding *Feb - Mar 2026*

- **2nd Place, USC & Techstars Startup Weekend**: AI agent surfacing unrecorded charges, from billing-workflow research · **1st Place, Newegg (WD & UGREEN)**: PC café service design · **Team Award**: medication-adherence MVP in 4 hours.

Professional Practices Residentials | America On Tech LA · Lemonlight × USC IYA *Sep 2025; Sep 2026*

- **AOT:** Instagram platform proposal and **12-16-week pilot** in 5 days, with accessibility guidelines and recruitment metrics · **Lemonlight:** mixed-method research on AI in video production; pitched **AI-localized Reels campaigns**.

RESEARCH & PUBLICATIONS

Research Team Member | USC ACE Lab (Dr. Souti Chattopadhyay) *2026 - Present*

- Contribute to study design and manuscript on **collaborative reasoning in pair programming** (in preparation).

Research Assistant | Hongik University, Game Software *Mar - Dec 2023*

- Prototyped a **generative-AI authoring tool** for interactive storytelling; co-authored papers at **ICIDS 2023** and **KIISE 2023**.

Research Assistant | Hyundai Motor Co. · Sing In Sign · Samsung Electronics MX *2020 - 2022*

- User-tested **EV charging-port interactions** in **C++ and Figma** (KSDS 2023); **accessible music interface** (HCI Korea).
